### Implementation

- No Student is to be on the school premises prior to 8:30am.
- The gates entering into the school will remain locked until 8:30am.
- Any student on the school premises prior to 8:30am will be directed to Before School Care. Students attending Before School Care will be issued with an account for the service.
- Upon entering the school grounds the students are to gather in the school courtyard where they will be supervised. Students are not to move to other areas of the school until the music begins to play at 8:45am.
- The school day finishes at 3:30pm each day. It is expected that parents take responsibility to ensure that their children are collected at 3:30pm. Where parents face unforeseeable delays we ask that they notify administration. When notified students can wait in the office foyer.
- Students who are on-site after 3:45pm will be directed to After School Care. Students attending After School Care will be issued with an account for the service.
